

INTEGRATED UNIT

BY JORDAN M

On Tuesday the 10th of March Glen from the Victorian Wheelchair Association visited Caulfield Grammar School and spoke to both year six classes on living life in a wheelchair.

Glen had an accident at work, falling down a building landing on his head on concrete. He was in a coma for about seventeen days and when he came through he found out that he severely damaged his spine.

Before the accident Glen was very athletic who played many sports. He is still playing sport the difference is that he is in a wheelchair. He told us that he has the opportunity to compete in the Paralympic Games and has not stopped following his dreams and given up on life.

I believe that being in a wheelchair would be very difficult, and I would find it hard to understand, knowing that I would be in one for the rest of my life.

I learned so much about adapting to life in a wheelchair and now I know that a serious accident can happen to anyone and change your life.
